Business Management

A successful company is the result of good management, and there are only two ways to acquire the necessary skills: by making mistakes or by learning from those who have gone before.

We can help you identify the actions needed to improve your performance and guide you in implementing proven methods, tailored to your culture, to achieve better results.

What can we do for you?

- Comprehensive review and preparation of a functional and efficient organizational chart.
- Support the review and development of internal procedures that align with your actual procedures while preserving your own culture.
- Implementation of an in-house management system to control critical activities.

“Before anything else, being prepared is the secret to success”

Henry Ford

- A thorough review of your financial statements and flowcharts, looking for opportunities for improvement, also teaching you how to understand and work with them.
- Establish a sound corporate governance that allows you make better business decisions and present to potential investors as solid company.

"In the end, all business operations can be reduced to three words: people, product and profits. Unless you've got a good team, you can't do much with the other two"

Lee Laccoca

Effective Leadership

Without strong bases a building can't be raised, neither a business can be success without a good team.

Finding the right people is often trial and error, as is leading them to get their full potential, being necessary a good organizational culture to maintain their engagement.

Our expertise can help you achieve these goals by creating solid bases for your business's growth.

What can we do for you?

- Organizational structure and design.
- Aligning of HR strategies with business objectives.
- Internal policy development.
- Employee training and skills development.
- Conflict resolution and employee relations support.
- Change management initiatives
- Building of your own Organizational Culture.
- KPI implementation and feedback processes, including gap management and career development.
- Mergers & acquisitions support.
- Leadership development, identifying internal talents.
- Executive coaching and mentoring

Financial Advising

Securing funding from banks or private investors presents a complex challenge that necessitates a comprehensive business plan, effective business management, and meticulous preparation of pertinent information.

We offer comprehensive assistance in crafting a professional business plan, presenting it to investors and financial institutions, and successfully conducting the required due diligence.

“A lot of people have gone further than they thought they could because someone else thought they could.”

Zig Ziglar

What can we do for you?

- Drafting comprehensive business plans tailored to the requirements of banks and private investors, ensuring clarity, professionalism, and a compelling value proposition.
- Creating and refining investor presentation decks and pitch materials to effectively communicate the business opportunity.
- Risk assessment and mitigation planning to address potential concerns of funders.
- Setting up a digital data room for secure and efficient sharing of documents with investors and lenders.
- Consulting on term sheets, negotiation points, and deal structuring with lenders or investors.
- Strategic financial advice to optimize company valuation and financial health during the funding process.

“There are no secrets to success. It is the result of preparation, hard work and learning from failure.”

Colin Powell

Investment Projects

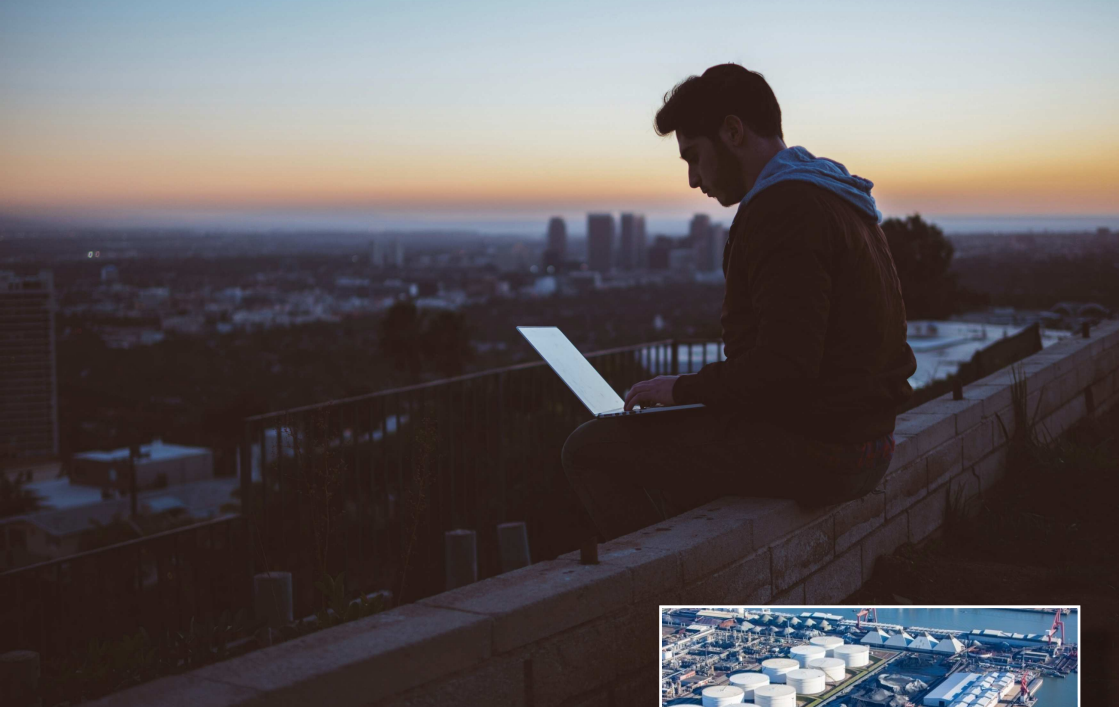

If you're looking to invest in the US or Latin America, manage your current investments, or start new ones, we're here to help.

We can guide you through everything from crafting business plans to structuring companies, designing management processes, and getting the licenses you need for construction and operation.

With our extensive experience, we can turn your business plans into real-world success.

What can we do for you?

- Business Case preparation for new investment projects, including Market Research and Cash Flow with estimated Capex and Opex, Taxes, Depreciation, etc.
- Assisting with obtaining all necessary licenses and permits for construction, operation, and ongoing business activities in the US and Latin America.
- Establishing a project team or take the full managing of the project as Project Director.
- Navigating complex regulatory environments to ensure full compliance with local, state, and federal requirements.
- Identifying and evaluating investment opportunities, including joint ventures, mergers & acquisitions, and franchise or licensing arrangements, especially for projects in the US and Latin America.

Technical Support

Our extensive experience in managing logistics, port, oil and gas, and warehouse projects from conception to completion equips us to provide comprehensive advice that guarantees the successful execution of your logistics projects. We support you in identifying and implementing technical solutions to address any challenges you may encounter.

Working with an open mind and unwavering commitment, we have successfully resolved any challenge that has come our way.

“Give me six hours to chop down a tree and I will spend the first four sharpening the axe”

Abraham Lincoln
